Purpose

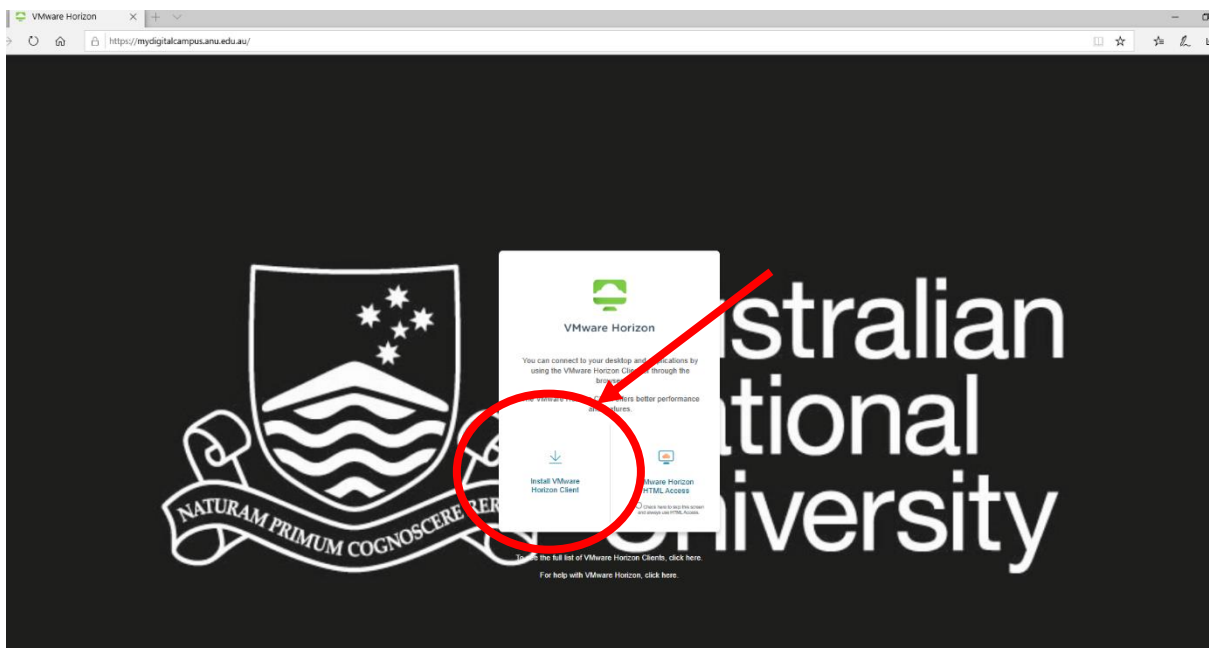

This document provides details about how to Login to ANU's Virtual Information Commons to enable you to access your campus-based applications and content.

Login Process

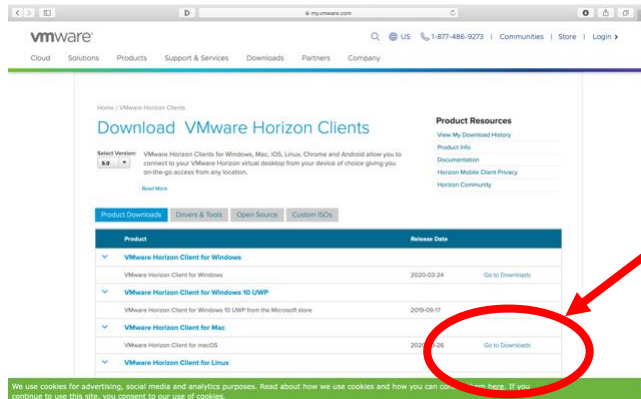

1. **Launch** your web browser and navigate to: <https://mydigitalcampus.anu.edu.au>

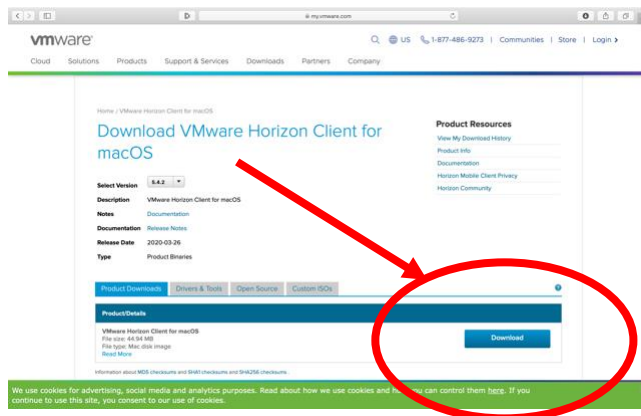

2. When the website is launched, **click** on the VMware Horizon HTML Access.

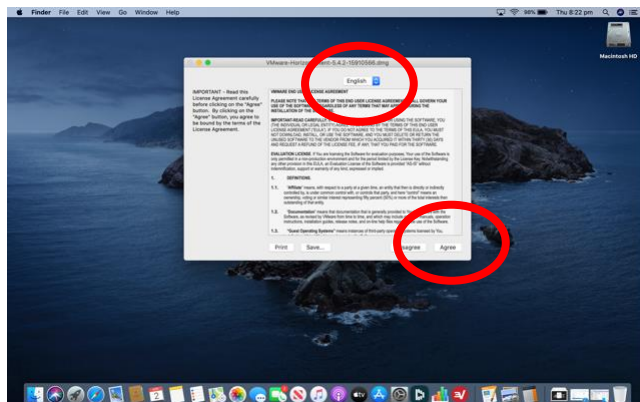

3. Choose VMware Horizon Client for MAC

4. Download VMware Horizon Client for MAC

5. Click Open once the .dmg file has finished downloading and Select English if the download defaults to German and Click Agree

6. From the VMware Horizon Client Window drag the VMware Horizon Client icon to the Applications folder

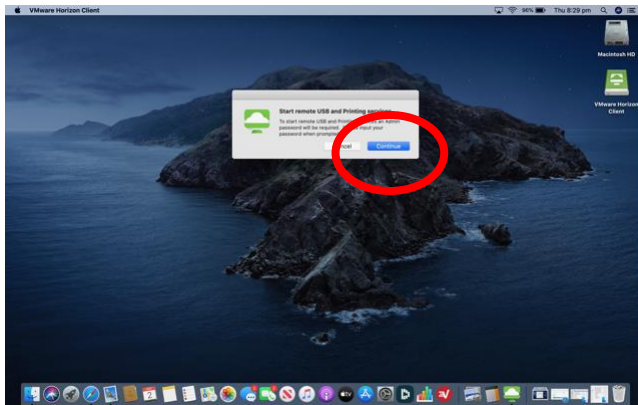

7. Click to **Open** the client from the applications folder

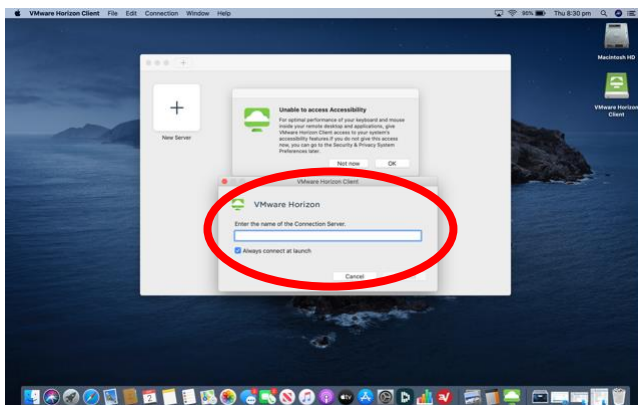

8. Select **Open** on the warning message

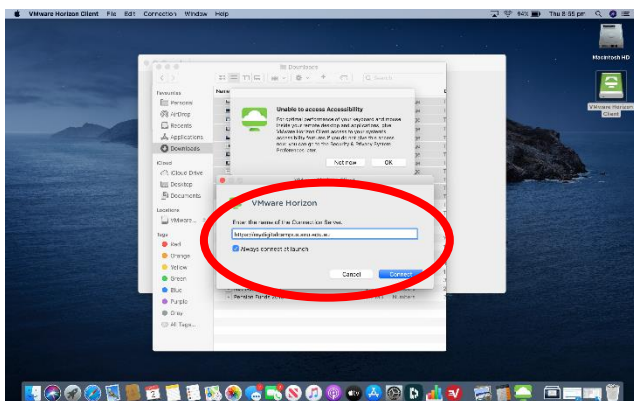

9. Click **Continue** or Cancel for remote USB and Printing Services

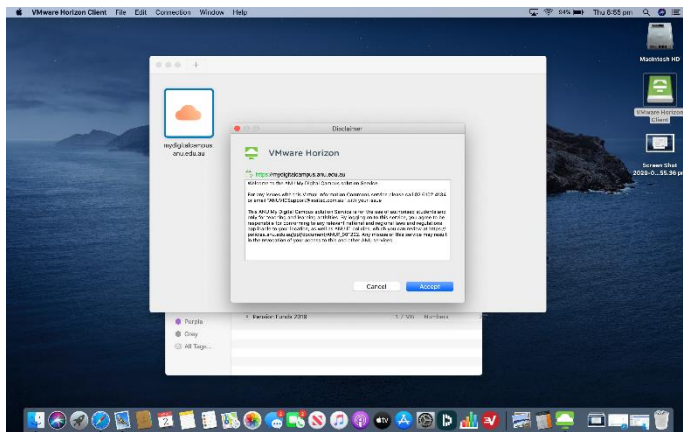

10. Enter the **name of the Connection Server** and click connect

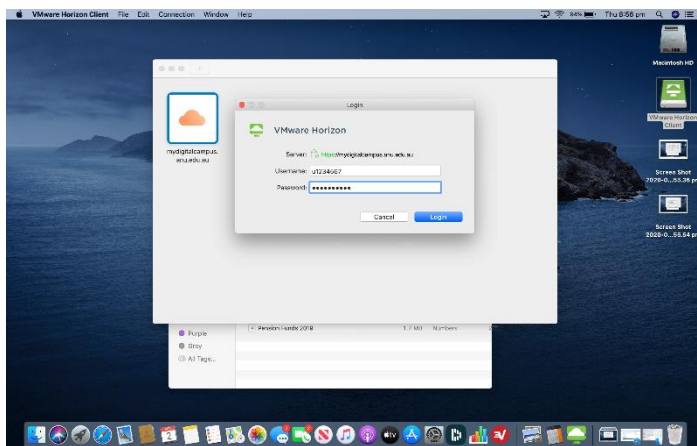

11. Enter **https://mydigitalcampus.anu.edu.au** and click connect

12. Accept the Terms and Conditions

13. Enter your UniID and password, hit enter or click on Login button

14. Once the desktop is ready, you will be able to access all the applications and content available to you on campus.
