## Purpose

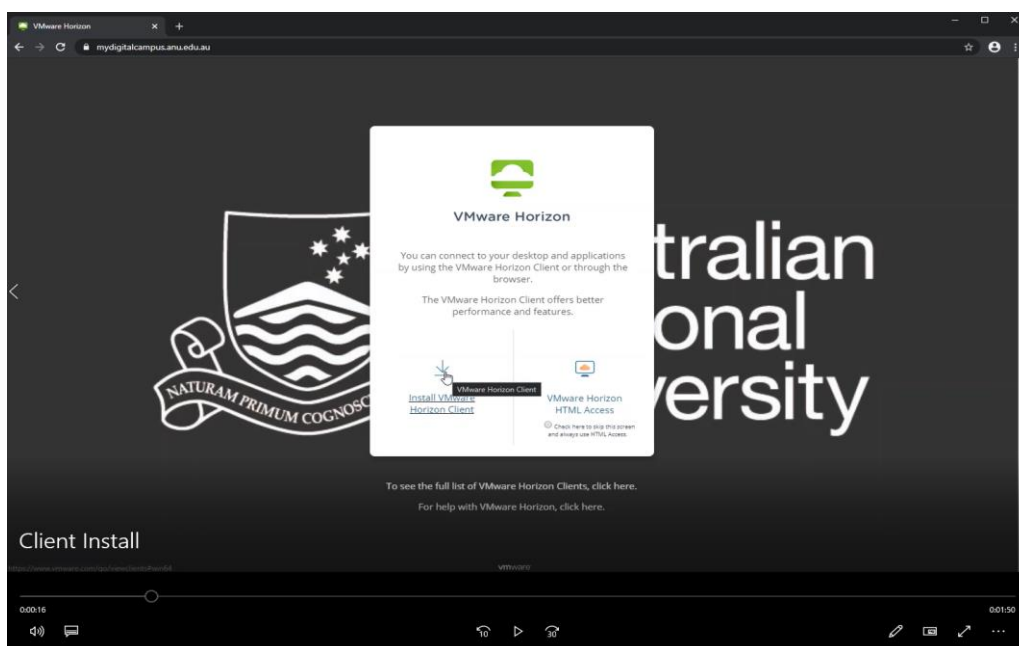

This document provides details about how to Login to ANU's Virtual Information Commons to enable you to access your campus-based applications and content.

## Login Process

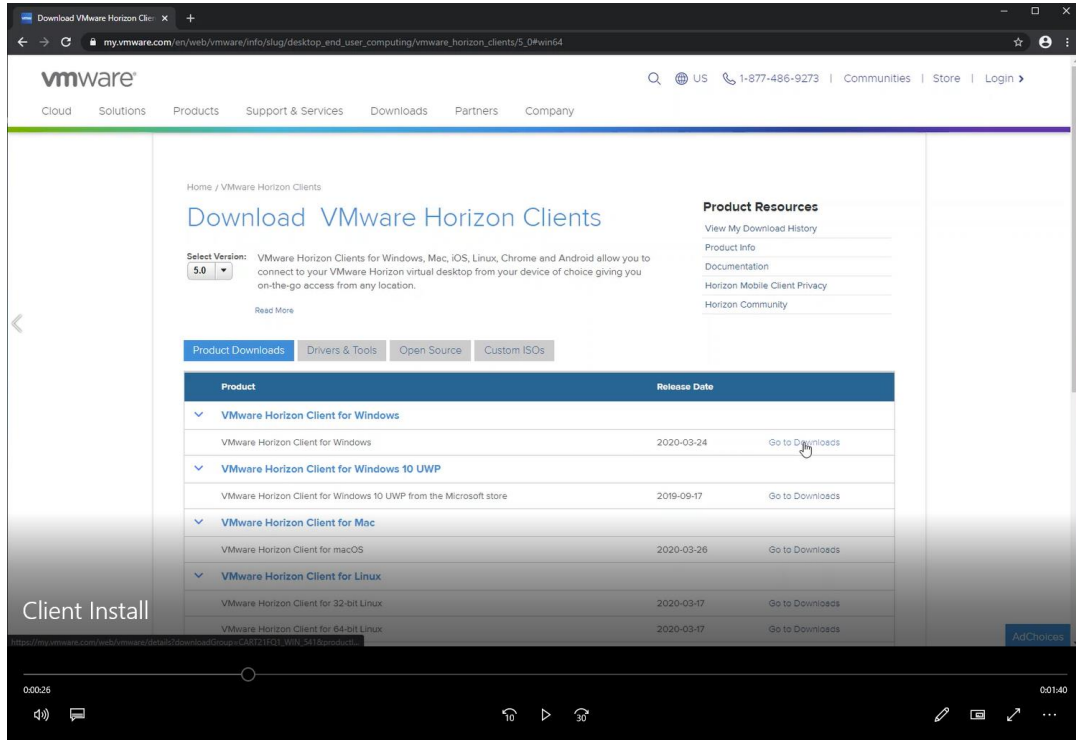

1. Launch your web browser and navigate to: <https://mydigitalcampus.anu.edu.au>

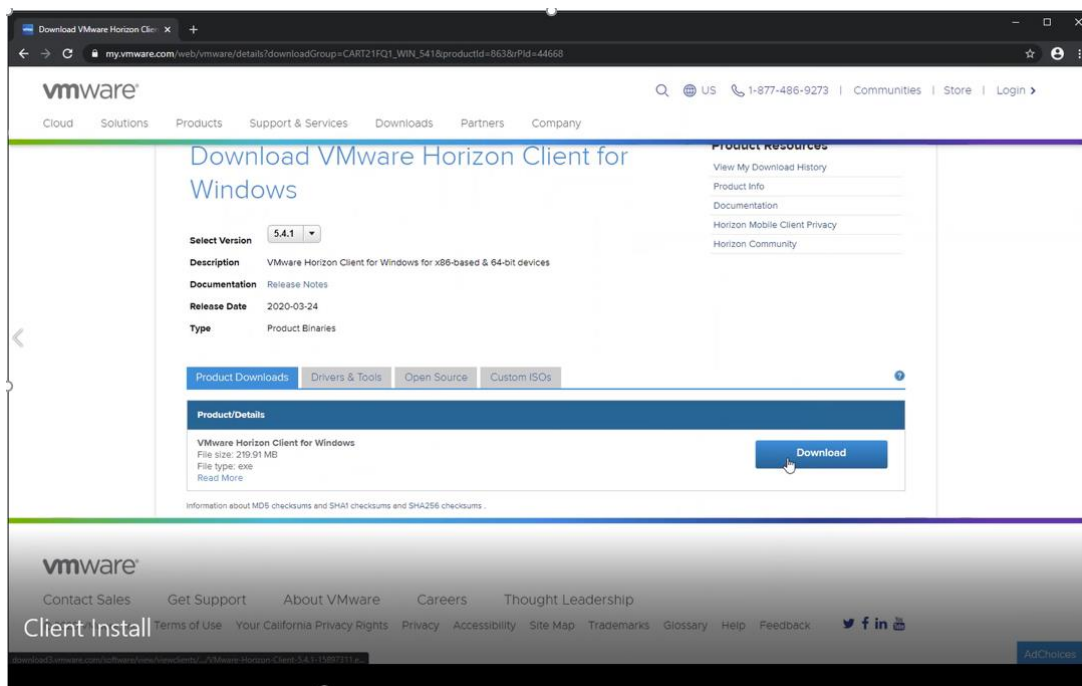

2. When the website is launched, **Click** on “Install VMWare Horizon Client”

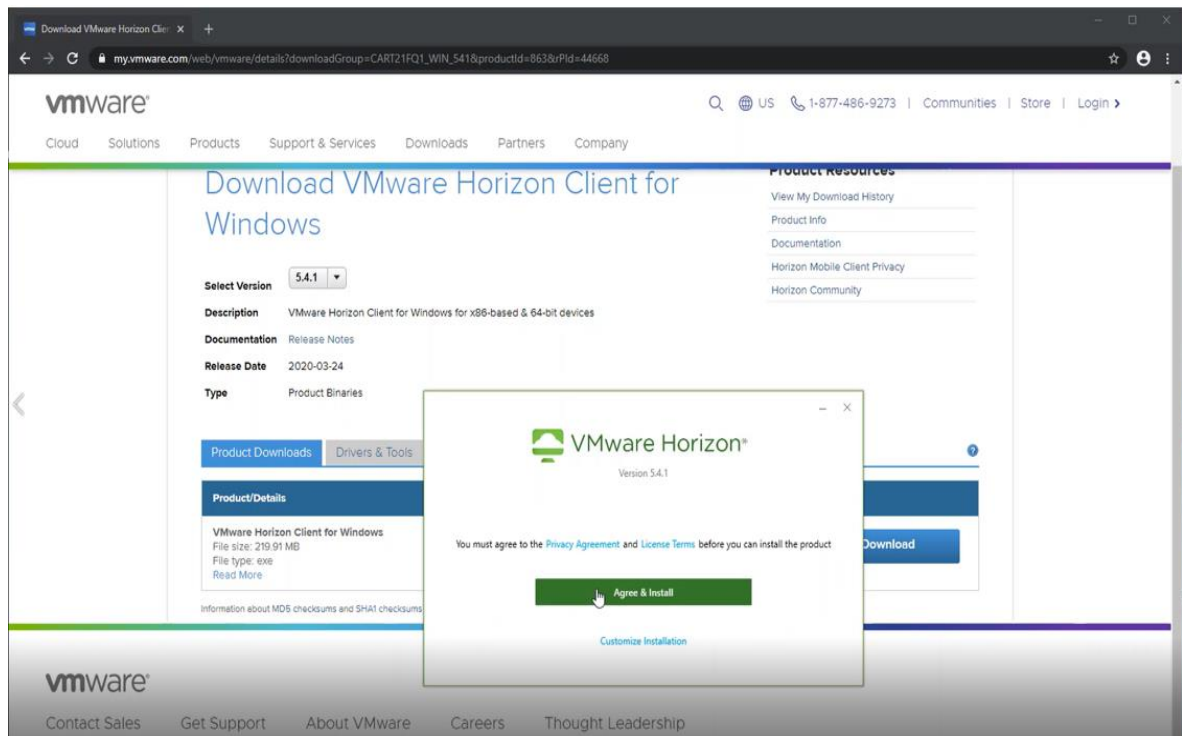

- You will be redirected to the VMware Horizon View Client Download Centre. **Select** the VMware Horizon Client for Windows –

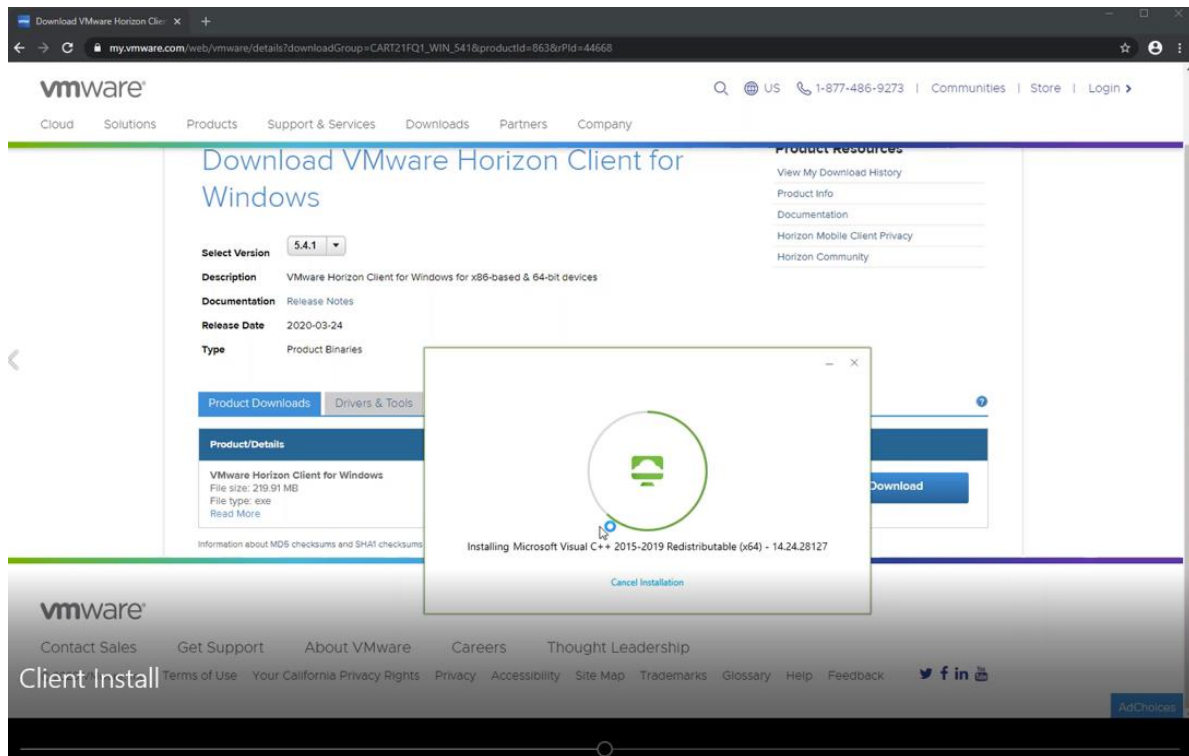

- Download the Windows Client – approx 222MB.

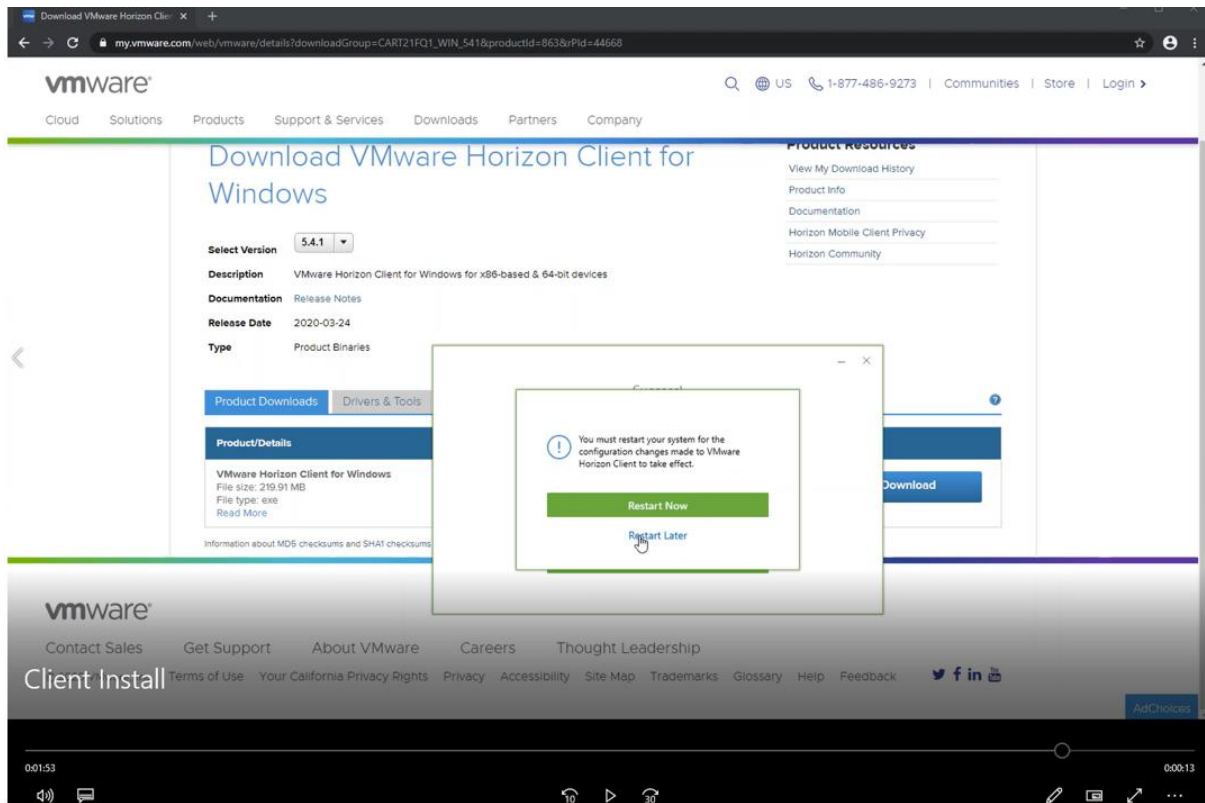

- When the client has downloaded, **double click** the installation package. **Click Agree and Install.**

- The Horizon View Client will then install.

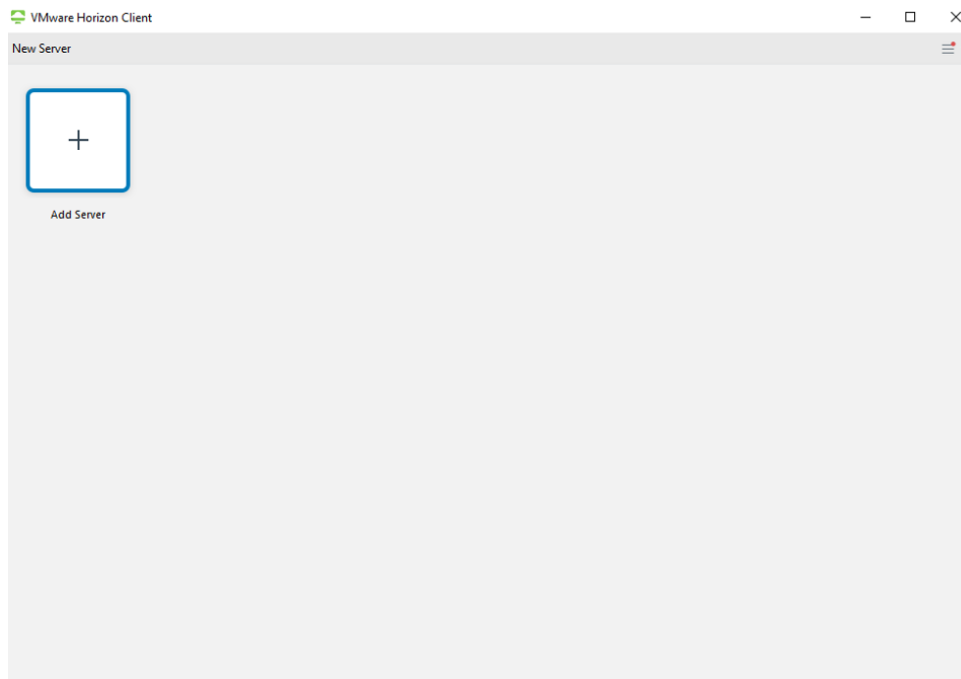

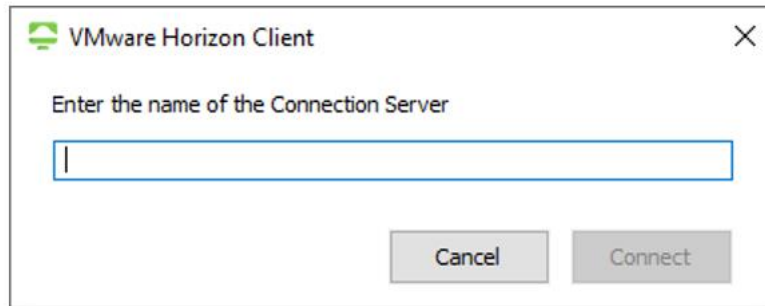

7. Once complete the installation package will recommend that you restart your machine.

## Client Configuration

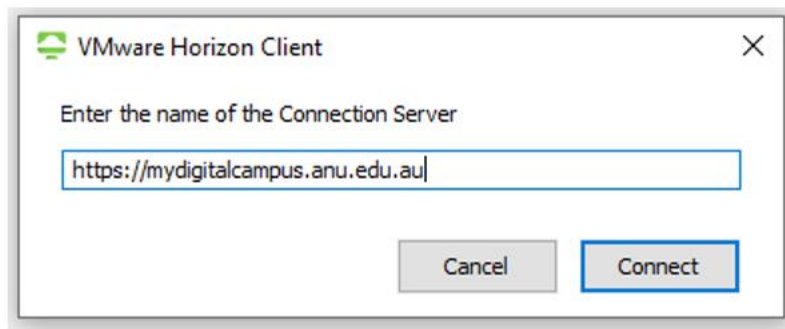

8. Double Click the VMware Horizon View Client
9. Double Click Add Server

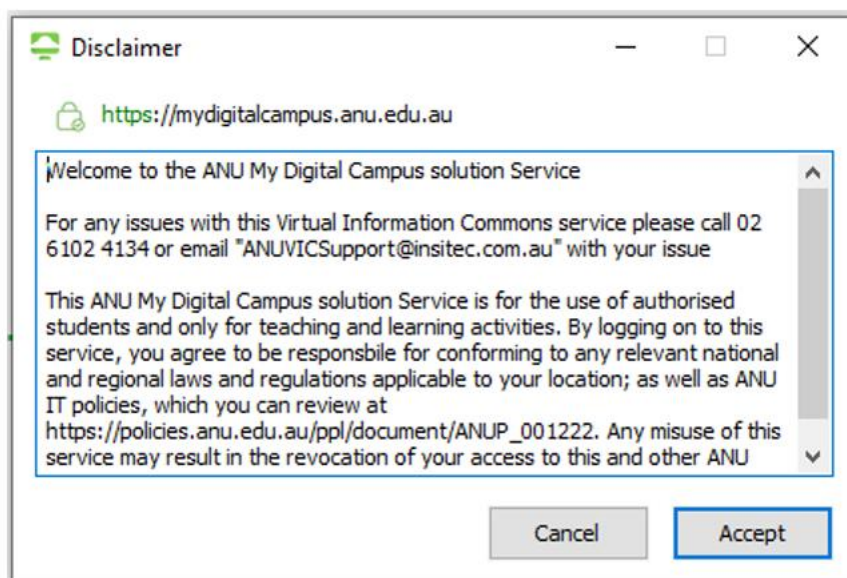

10. **Type** in the URL to the ANU Connection Server <https://mydigitalcampus.anu.edu.au>
